

CONTENTS

Geology	5
P. V. Yermolov, V. S. Portnov, D. K. Makat. Age and geodynamics of central Kazakhstan carbon ore copper provinces	5
O. K. Tiapkin, P. H. Pihulevskiy, M. M. Dovbnich. Taking into account of influence of earth crust faults in solving geological and geocological tasks by geophysical methods	15
Mining	23
V. I. Hrymaniuk, V. V. Bogoslads, V. I. Kolisnyk. Elaboration of reinforced cement material for cementing of deviated wells	23
A. Sladkowski, A. Utegenova, K. Elemesov, I. Stolpovskikh. Determining of the rational capacity of a bunker for cyclic-and-continuous technology in quarries	29
V. O. Sotskov, Yu. I. Demchenko, S. V. Salli, N. I. Dereviahina. Optimization of parameters of overworked mining gallery support while carrying out long-wall face workings	34
O. M. Shashenko, N. V. Khoziaikina, R. M. Tereshchuk. Distribution of displacements around a single mine working driven in stratified rock mass	40
Solid-state physics, mineral processing	47
Sh. K. Amerkhanova, R. M. Shlyapov, A. S. Uali. Evaluation of flotation ability of a sulfhydryl collector mixture in the processing of copper-bearing ores	47
V. V. Sobolev, L. M. Shyman, M. M. Nalysko, O. L. Kyrychenko. Computational modeling in research of ignition mechanism of explosives by laser radiation	53
I. Rouaiguia, M. Bounouala, C. Abdelmalek, A. Idres. Valorization of waste rocks from Boukhadra iron ore mine for better environmental management	60
Geotechnical and mining mechanical engineering, machine building	68
A. E. Artyukhov, A. V. Ivaniia. Obtaining porous ammonium nitrate in multistage and multifunctional vortex granulators	68
V. V. Kalchenko, A. M. Yeroshenko, S. V. Boyko. Mathematical modeling of abrasive grinding working process	76
O. I. Skibinskyi, A. O. Hnatiuk. Research on kinematics of contact interaction of cycloidal profiles in gerotor gearing	82
O. V. Fomin, A. O. Lovska, O. A. Plakhtii, V. P. Nerubatskyi. The influence of implementation of circular pipes in load-bearing structures of bodies of freight cars on their physico-mechanical properties	89
G. L. Vatulia, D. H. Petrenko, M. A. Novikova. Experimental estimation of load-carrying capacity of circular, square and rectangular CFTS columns	97
A. A. Cheilytko, S. V. Ilin, M. A. Nosov. Creation of effective metallic thermal insulation constructions	103

Power Supply Technology	109
G. G. Pivnyak, I. V. Zhezhelenko, Yu. A. Papaika, O. H. Lysenko. Interharmonics in power supply systems.	109
Environmental safety, labour protection	115
O. S. Kovrov, K. S. Prychyna. Slope stability assessment of hydraulic-fill soil dams and fill-up embankments.	115
V. Ye. Kolesnik, O. O. Borysovs'ka, A. V. Pavlychenko, A. L. Shirin. Determination of trends and regularities of occurrence of emergency situations of technogenic and natural character in Ukraine.	124
Information technologies, systems analysis and administration	132
I. K. Mladetskyi, Ya. H. Kuvaiev, N. S. Priadko. Control regularities of the useful mineral extraction from ore feed stream with ball grinding. Spectral analysis	132
M. H. Berdnyk. Analytical solution of the Dirichlet generalized boundary problem of heat-exchange in the finite cylinder with homogeneous layers	138
N. A. Kniazieva, S. V. Shestopalov, T. V. Kunup. Analytical model of application layer in NGN of mining industry enterprises	145
N. Y. Shramenko. Evaluation of the effectiveness of piggyback traffic in the context of creating transport and logistics clusters	151
Economy and management	156
S. A. Tussupova, A. S. Kussainova. Efficiency of adaptation of the national economic systems to global technological transformations: the role of the education system	156
Yu. V. Rogushina, S. M. Pryima. Ontological approach to qualification matching based on competences: model and methods	162
